

Project Status Report

Project Name	Lockheed Martin #2: Digital Twin Simulation		
Date	4/12/2021	Created By	Brandon Roemer
Status RAG	Time	Team Member Participation	N/A
Progress Last Week	<p>Last week team one continues to polish their code and integrate it back into the main branch, as well as looking at how they can integrate some of their code into teams two code so that team two can catch up.</p> <p>Team 2 has made significant progress and has fixed many bugs and now starts integrating back into the main code as well.</p>		
To Do This Week	<p>This week we will continue work towards the main task of integrating both models back into the code. In order to do so team two will continue with the model report. Team one is slowing down and moving to working on documentation and helping team two.</p> <p>We will also have our sponsor meeting this Tuesday to discuss any blockers.</p>		
New Issues, Risks, Blockers	We currently have not blockers and are making a lot of forward progress.		
Updates on Issues, Risks, Blockers Raised Last Week	Last week we were able to fix our blockers or make progress on them for both teams.
