

# Project Status Report

Project Name	Lockheed Martin #2: Digital Twin Simulation		
Date	11/9/2020	Created By	Owen Fulton
Status RAG	Time	Team Member Participation	N/A
Progress Last Week	Had final (4 of 4) meeting with thermal modeling members at Lockheed Martin. Finished up slides for project presentation and began practicing each team members part. Also worked through gaining access to Lockheed database for access to actual project.		
To Do This Week	Begin practicing project presentation (Monday) and then carrying out actual project presentation (Thursday) over Zoom. Will clip all the videos together as well. Also, further forms to fill out for database access must be completed. Finally, meeting with sponsor to go over progress (should be on the shorter side as most of the stuff is administrative)		
New Issues, Risks, Blockers	Nothing significant to report		
Updates on Issues, Risks, Blockers Raised Last Week	None
