

Project Status Report

Project Name	Lockheed Martin #2: Digital Twin Simulation		
Date	2/8/2021	Created By	Brian Jackman
Status RAG	Time	Team Member Participation	N/A
Progress Last Week	This week we got access to the task management system so we were able to make a git branch and start development. We also made a kanban board so we can track the tasks we need to do. Additionally we learned more about the issues we needed to fix.		
To Do This Week	It is finally time to begin development! Next we will begin developing some of the features required of us (LM proprietary). We will do more pair programming on these.		
New Issues, Risks, Blockers	Now that we are starting development we have a lot to do in the next 2 months.		
Updates on Issues, Risks, Blockers Raised Last Week	We have been given access to the task management system and made a branch.
